

Sunnyside High School

May 10, 2023

To Whom It May Concern:

It is with great pleasure that I recommend Everardo De La Rosa for the career of Web Developer. Everardo is one of my most successful Government/Economics students who demonstrates maturity and a good academic work ethic. Everardo doesn't hesitate to ask for assistance or help his fellow students and when tasks are assigned, and he can work well independently and with group members when necessary. His inquisitiveness is refreshing, and it is uplifting to an educator to witness a student so invested in his education.

Everardo has attended CART his senior year while also taking rigorous Advanced Placement and college prep courses at Sunnyside High School. Everardo has excelled in Sunnyside High School's multicultural environment and relates well to his peers and his teachers. As the first in his family to attend a university, I feel confident Everardo will excel in any goal he pursues in college and in his career in Web Development. The organization that gains Everardo as a team member will be greatly benefited because of Everardo's dedication to his education, his family, his community, and his future. I recommend Everardo for this career field without hesitation. If additional information is needed, please contact me at phoebe.romero@fresnounified.org.

Sincerely and respectfully,

Phoebe Romero
Social Science Teacher,
Sunnyside High School
